Section- $\alpha, \beta, \gamma, \delta, \epsilon$ & Ω

Subject–Maths

Chapter -5 Addition & Subtraction of Bigger Numbers

Q.1 Subtracting 3- digit Numbers (With regrouping)

With regrouping

Example: Subtract 378 from 762.

Solution: Let's subtract.

Step 1: Write the numbers in columns.

Step 2: Subtract the ones.

Since $2 < 8$, borrow 1 ten from the tens column and subtract.

$$12 - 8 = 4 \text{ ones}$$

Step 3: Subtract the tens.

Since 1 ten was borrowed and $5 < 7$, borrow 1 hundred from the hundreds column.

$$15 - 7 = 8 \text{ tens}$$

Step 4: Subtract the hundreds.

$$6 - 3 = 3 \text{ hundreds}$$

Thus, $762 - 378 = 384$.

	H	T	O
	6	15	12
-	3	7	8
	3	8	4

Q.1 Subtract the following.

Subtraction

$$\begin{array}{r} 1) \quad 149 \\ - \quad 70 \\ \hline \end{array}$$

$$\begin{array}{r} 2) \quad 360 \\ - \quad 26 \\ \hline \end{array}$$

$$\begin{array}{r} 3) \quad 527 \\ - \quad 54 \\ \hline \end{array}$$

$$\begin{array}{r} 4) \quad 254 \\ - \quad 82 \\ \hline \end{array}$$

Q.2 Let's Subtract.

		9	2	6				8	3	5				9	5	6		
		-	6	5	8			-	3	6	8			-	5	9	8	
		9	2	3				7	5	3				8	2	3		
		-	5	6	7			-	3	7	8			-	3	8	6	

Q.3 Complete the page 67 My Practice Time 2 Q.2(c to i) in the I Did It Maths book.

Q.4 Memorize the table of 8&9.

Note:- Complete the given assignment and send the picture of it after completion through Ms Team class notebook.
